**Use / Applications:**

It is particularly suitable for the bodywork industry.

It is specially designed for removing contaminants from surfaces during preparation and prior to application of painting products.

It perfectly removes traces of grease, handprints and general surface dirt from the substrate painted with water-based products.

It can also be used for cleaning plastic surfaces of bumpers before painting.

It dries quickly without leaving halos.

**How to use:**

Apply with a cloth that has been soaked in the product and then wipe dry with a dry cloth.

**Additional Information:**

The product complies with Italian Legislative Decree No. 161 of March 27, 2006 for the limitation of emissions of VOCs (volatile organic compounds) resulting from the use of bodywork products.
