

Technical Data Sheet:
Acquaragia Silver 603

Codice:
1106

Sigla: ST106
Rev.: 8
Data: 04/12/17

Product Type:

Solvent for oil-synthetic paints, high quality synthetic enamel.

Formats:

Tank: 1000 liters,
Drum: 200 liters,
Cans: 25 - 10 - 5 - 1 - 0,5 liters

Product Characteristics:

denatured white spirit.

Technical Specifications of the Product:

CHARACTERISTICS	UM	VALUE	METHODE	TOLERANCE
Aspect	Liquid		Visul	//
Color	Clear colorless		Visul	//
Density at 20°C	Kg/dm ³	0,790	Met. Int. ISTR. 44	± 0,01
Water conternt	%	0.02	Met. Int. ISTR. 48	Massimo

Use / Applications:

It is used for the dilution of synthetic and oil-synthetic enamels.

In addition to a good solvent power, the slow evaporation gives a perfect expansion and gloss to the film.

Furthermore:

It can also be used for cleaning surfaces before painting, as a wax remover, as a solvent for oils and greases, for cleaning tar stains, for cleaning painting equipment, for "do it yourself" jobs, etc.

It is very soft and pleasant smell.

For degreasing, washing and cleaning in the bodywork sector, refer to products compliant with Legislative Decree 27 March 2006, no. 161.

How to use:

Dilute the enamel to obtain the optimal viscosity for the chosen application.

The thicker the brush or roller, more liquid for spray application.

Approximately between 10 and 20%, unless otherwise indicated in the paint package.
