**Product Type:**

Water-soluble solvent for washing water cycles

**Formats:**

Cans 25-5 liters.

**Product Characteristics:**

Blend of water-soluble solvents particularly suitable for washing equipment used for applying water-based paints.

**Technical Specifications of the Product:**

**Use / Applications:**

It is specially designed for the bodywork industry.

It is used for washing all equipment used for applying water-based varnishes, as well as all other paints.

It is effective on both fresh and partially dried varnishes.

It has excellent solvent power, quick drying and it leaves no residue.

It does not affect gaskets or the light alloys of *GUNS*, for which it is specifically formulated. However, because of its high solvent power, it is not recommended for use on painted, plastic, fiberglass or Plexiglas surfaces.

**Furthermore:**

It can also be used for general cleaning purposes.

**How to use:**

It can be used by dipping, brushing or wiping and is fully miscible in water.

**Additional Information:**

The product complies with Italian Legislative Decree No. 161 of March 27, 2006 for the limitation of emissions of VOCs (volatile organic compounds) resulting from the use of bodywork products:

Product	Function	Limit value of ready-to-use product (g/l) - Legislative Decree No. 161/06
