

	Technical Data Sheet: <u>Mordant</u>	Code: ---	Ref.: ST2400. Mord. Rev.: 2 Date: 01/12/2010
Product Type: Wood dye		Formats: 0.500 kg	
Product Characteristics: Mordants are dyes based on ‘Cassel earths’ and are in the form of crystalline powders. They are composed of sodium salts (with added organic dye for mahogany mordant).			
Technical Specifications of the Product: They have different technical specifications depending on the color chosen, so please ask for the specification you are interested in.			
Available colors: WALNUT (ref. 2417) MAHOGANY (ref. 2418)			
Use / Applications: Mordants are mainly used as dyes in the wood and paper industry. They have excellent coloring power, resist light, are odorless and water-soluble.			
How to use: Warm water and effective stirring are recommended to facilitate dilution.			
Additional Information: The intensity and hue of the dye depend on the amount of mordant used in the prepared solution.
