**Technical Characteristics:**

This product is perfect for cleaning grease and grease residues from any painted and unpainted surface, rubber and plastic surfaces.

It removes tar from automobile bodies and is excellent for cleaning floors, machine tools, engines or their parts.

*And also:*

It is also particularly suitable for cleaning rubber rollers and clichés of printing machines using grease inks.

For degreasing, washing and cleaning operations in the bodywork sector, please refer to products that comply with Italian Legislative Decree No. 161 of March 27, 2006.

**How to use:**

It can be applied by using a brush, a rag or spray.

**Useful Advice:**

DENATURATED Product.

Denaturation prevents it from being used as a fuel, but whilst all other characteristics of petroleum are left unaltered, it also allows it to travel free of circulation and storage constraints, so it can be sold in any package.
