

Technical Data Sheet:
Plasto Bianco (Straw Oil)

Code:
1169

Ref.: ST169
Rev.: 3
Date:
22/06/2012

Product Type:

It brightens all surfaces made of wood and plastic, as well as anodized aluminum window frames. Impregnating agent for porous floors and concrete artifacts.

Formats:

Drums 200 liters,
Cans 25 - 5 - 1 - 0.500 - 0.250 liters.

Product Characteristics:

Blend of denatured synthetic oils (alkylbenzoles) with an extremely faint odor and a straw color, hence the name.

Technical Specifications of the Product:

CHARACTERISTIC	METHOD	UM	VALUE
Physical state	Liquid, Clear amber		
Color	ASTM D 1500		1.5
Flash point	ASTM D 93	°C	160
Water content	ASTM D 1533	p.p.m.	100
Density at 20°C	ASTM D 4052	Kg/l	0893
Viscosity at 50°C	ASTM D 445	cSt	12.7
Index of refraction	ASTM D 1218		1494

Use / Applications:

It brightens and nourishes furniture varnish, protects virgin wood, and is used as an impregnating agent for porous floors and concrete artifacts. It can also be used in interiors, because it is a synthetic oil and even in the presence of mold and bacteria there is no risk of bad odors caused by the rancidity of fatty acids in vegetable products.

And also:

It is particularly suitable for polishing anodized aluminum window frames, reviving and restoring plastic shutters as well as all plastic parts of boats, mopeds, etc., discolored by the sun.
