Use / Applications:

Specially designed for diluting enamels used in road surface marking.

It evaporates quickly, so that the paint is dry and walkable in a short time, and most importantly without melting the asphalt surface.

Needless to say, it can also be used on garage concrete, wood, iron, etc.

How to use:

Thin the paint, leaving it a little thick, so that the paint has more thickness.

It is also a great product for cleaning equipment.
