

Technical Data Sheet:
Thinner for Traffic Island 221

Code:
1151

Ref.: ST151
Rev.: 3
Date: 18/10/2021

Product Type:

Thinner for paints used in road surface marking.

Formats:

Tanks 1000 liters,
Drums 200 liters,
Cans 25 liters.

Product Characteristics:

Blend of pure, colorless and faint smelling raw materials.

Technical Specifications of the Product:

CHARACTERISTIC	UM	VALUE	METHOD	TOLERANCE
Physical state		Liquid	Visual	//
Color		Colorless clear	Visual	//
Flash point	°C	< 0 (closed cup)	Met. Int. ISTR.53	//
Density at 20°C	Kg/dm ³	0.844	Met. Int. ISTR.44	± 0.020

Use / Applications:

Specially designed for diluting enamels used in road surface marking.

It evaporates very quickly, so that the paint is dry and walkable in a very short time, and most importantly without melting the asphalt surface.

Needless to say, it can also be used on garage concrete, wood, iron, etc.

How to use:

Thin the paint, leaving it a little thick, so that the paint has more thickness.

It is also a great product for cleaning equipment.

Additional Information: //

The above information is provided based on our theoretical and practical knowledge. The company, however, does not assume any liability as the conditions of use and application are not subject to the control of Fidea SpA
