

**Technical Data Sheet:**  
**Earth Pigments**

**Code:**

**Ref.:** 2400.Terre  
**Rev.:** 3  
**Date:** 01/12/2010

**Product Type:**  
Pigments

**Formats:**  
0.500 kg

**Product Characteristics:**

Earth pigments are natural pigments, composed mainly of clay, iron oxide or other compounds that determine the color shade of the product.

**Technical Specifications of the Product:**

They have different technical specifications depending on the color chosen, so please ask for the specification you are interested in.

**Available colors:**

BURNED SHADOW (ref. 2414)  
OCHRED YELLOW (ref. 2416)  
RED (ref. 2413)

**Use / Applications:**

Earth pigments are characterized by the lightness and transparency of their colors, which are crucial to the success of frescoes, water-based paints, restorations and the renovation of buildings in historic centers.

They are stable to weathering and light.
